**ELEVENTH SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT**

Pursuant to 37 C.F.R. §1.56 and in accordance with 37 C.F.R. §§1.97-1.98, information relating to the subject matter of the above-identified application is hereby disclosed. Inclusion of information in this statement is not to be construed as an admission that this information is relevant or "material" as that term is defined in 37 C.F.R. §1.56(b).

In accordance with §1.97(c), this Information Disclosure Statement is being filed after the period set forth in §1.97(b) above but before the mailing date of either a Final Action under §1.113 or a Notice of Allowance under §1.311, therefore:

The fee of \$180.00 as set forth in §1.17(p) is attached.

Copies of each of the publications listed on the attached Form PTO-1449 are enclosed herewith.

Documents AB and AF, bearing dates substantially later than the filing date of the instant application, are not references applicable to the instant application but show blender apparatus appearing to be substantial copies of the Maguire Products blender apparatus embodying the invention which is the subject of the instant patent application. As such, documents AB and AF evidence the non-obvious, patentable nature of the subject matter of the instant patent application.

Documents AC and AD, bearing dates substantially later than the filing date of the instant application, are not references applicable to the instant application but show blender apparatus appearing to incorporate numerous features found in the Maguire Products blender apparatus embodying the invention which is the subject of the instant patent application. As such, documents AC and AD evidence the non-obvious, patentable nature of the subject matter of the instant patent application.

Document AG has come to the attention of applicant's counsel and is submitted to ensure complete compliance with the disclosure obligation. Applicant does not concede that document AG is prior art respecting the instant patent application.

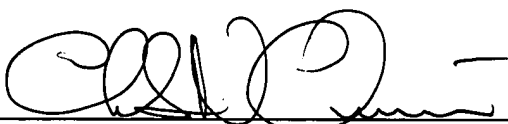

Documents AA and AE do not bear dates. Based on investigation, applicant and applicant's counsel believe these documents were published in the second half of

calendar 2000 and, hence, are not applicable as prior art respecting the instant patent application. These documents are submitted to ensure complete compliance with the disclosure obligation.

Please charge any deficiency or credit any overpayment to Deposit Account No. 50-1943. This paper is submitted in duplicate.

Respectfully submitted,

Date: 5 DECEMBER 2001
